Twenty-five years ago, the Johnston Health Foundation was founded by a small group of dedicated individuals who shared a desire to do good for others. And in the decades since, the foundation has helped improve the lives of thousands of people in our communities.

Every dollar that donors contribute to the foundation goes toward helping bring programs and advanced medical technology to our hospital campuses, and in doing so, has changed and saved lives. Thanks to our 3D mammography campaign, for example, radiologists are now able to earlier detect, or rule out, breast cancer.

We’re proud to say we’re working together at Johnston Health to build a culture of philanthropy to address the health care needs of our communities. Our board leaders, hospital executives, physicians and employees fully embrace our work, and they’re excited to engage their friends, neighbors and family members in our activities.

While we have achieved many things together, we’re determined to keep going. This fall, we’re offering naming rights for the new cardiopulmonary rehab center, which has moved to a larger, more efficient space at the north end of the Johnston Medical Mall.

Also notable, we’ve expanded our annual giving campaign to include Johnston Health employees and business partners. In all that we do, we’re striving to bridge the gap to provide quality health care close to home.

We’re dedicated to helping our health care system be the provider and employer of choice for Johnston County residents and health care professionals.

“Together, We’re Helping Make Johnston County A Great Place To Call Home.”

**Thank You To All Of Our Supporters!**
More than 600 people participated in the Champions 5K and 10K race on May 6, making it the largest in the event’s history. We appreciate everyone who ran, walked, cheered, visited and volunteered. With the support of our wonderful sponsors, we raised $24,000 for the Angel Fund and the Healthy Kids Fund. It was truly a great day to be a part of the Johnston Health community. If you’re looking for ways to be more active, remember that walking and running are great for your health. So come join us for our next race, on April 14, 2018.

Erin Evans of Four Oaks Bank leads one of the largest corporate teams in the Champions 5K & 10K. During the past four years, she has watched the event and the confidence of her coworkers grow. “Every year, I see employees participate who have never attempted a 5K. But once they try it, they vow to do it again. Their excitement is infectious! And those who are avid runners always try to better their race times.”
The Johnston Health Society sponsored an appreciation event on June 1 at the home of Kelly Daughtry in Clayton. The evening was an opportunity for Johnston Health Foundation Board members to thank financial donors for their annual contributions. The reception was a great success. And we thank Kelly for opening her lovely home.

- Julia Narron
  Board Member

The Johnston Health Society is a group of citizens that believes that philanthropy is one of the keys to creating quality care close to home. They commit to an annual contribution of $500+ to ensure that all of our hospital patients have access to the care that they need and deserve.

Total: $130,025

Hospice Patient Charity Care

Total Amount Spent on this Program: $43,846
Angel Fund

We are grateful to the local businesses that are supporting our Angels for a Cause campaign. Through the sale of paper angels, employees and customers are contributing to the Angel Fund to support cancer patients who are going through financial hardship.

The fund pays for needs such as pain medication and gas for transportation to treatments. Many thanks to all the participating businesses who successfully completed their 2017 campaigns.

Aldridge Insurance (left), Super 8 Hotel (bottom left and right).

“Our experience with the Angel Fund fundraiser has been very rewarding! When someone has cancer, it affects their entire family, friends, and co-workers. We personally know what that feels like and this was a way we could help patients pay for medical expenses that they cannot afford. While we thought we would have a few folks interested in donating, some members really stepped up and donated significantly because they personally knew someone who had cancer and understood the organization was a great way to give back. This fundraiser allowed us to continue our mission of “People Helping People” and we look forward to helping support the Angel Fund’s efforts in the future”.

Elizabeth Fair, VP of State Employees’ Credit Union at McGee’s Crossroads.
The Johnston Health Foundation Healthy Kids Program is a 12-week health education scholarship program at HealthQuest Fitness and Wellness Center. The program is designed to teach at-risk youngsters ages 9 to 18 the nutrition and fitness practices that will keep them active and healthy.

Top 3 Program Highlights

By Frankie Benavidez,
Personal Trainer, Healthy Kids Program

1. More Champions 5K participation. Because of their improved health, students are taking on advanced fitness challenges. Back in 2015, eight students competed in the Champions 5K. This year, 25 participated in the race!

2. Retention is up. Switching to a health-and-fitness mindset doesn’t happen overnight, or in just a few weeks. It takes discipline, consistency and determination to see results. We are happy to say that many students re-enroll in the program. They enjoy every session, and appreciate the impact this program has on their lives.

3. Word is spreading. An increasing number of students hear about our program through word of mouth. When parents see their children’s results, they tell their friends. In the past two years, we have shown that the Healthy Kids Program does make kids healthier!

Family Story:

Sisters Arianna and Cadance, and mother, Kara, are believers in the Healthy Kids Program.
“I know that exercise is helping my mind, body and soul.” --Arianna
“Exercising is getting easier, and I like learning new ways to be healthy.” --Cadance
“My daughters’ physical health has improved, but I can also see changes in how they think and act. The five principles of the Healthy Kids Program: attitude, commitment, work ethic, accountability and perseverance, are something they live by. They are also reading food labels more carefully.” --Kara

Congrats To The Latest Healthy Kids Graduates!

We celebrated a milestone in April when every student in the class graduated. This was a first for our program since it began in 2015. Our students and their families are seeing the positive effects of this program, and are more committed to improving their personal health and fitness. To date, we have made an impact in the lives of 163 graduates. If you are interested in learning more about this program, please visit our website: www.johnstonhealth.org/foundation. To adopt a scholar, please contact: sol.halliburton@unchealth.unc.edu.
“This is the most awesome day ever,” a youngster told Camp Courage organizer April Barbour-Matthews while they were standing in the lunch line. And the day was only half over. The hospice social worker believes the day-long bereavement camp, now in its fourth year at Camp Mary Atkinson in northern Johnston County, is making a difference in the lives of children. “This is an amazing service for our community.” Thirty-two youngsters, from ages 6 to 16, participated in the camp on June 10.

The camp provides a supportive environment in which children can share their feelings. Through structured activities, they learn how to cope with loss. By sharing memories, they learn how to maintain healthy connections to their lost loved ones. Volunteers include social workers, bereavement counselors, chaplains, nurses and others who have training and experience in working with grieving children. Additional volunteers lead activities such as crafts. Girl Scouts serve as trail guides for campers and volunteers. “We have many returning campers who say the day-long experience has had a positive impact on their lives,” Barbour-Matthews says. “This was the last year for one of our charter campers who will be aging out. She has already asked if she can return next year as a volunteer.”

Hospice Fund

The Johnston Health Foundation is pleased to offer personally engraved bricks as your lasting legacy to the SECU Hospice House. This is also a great opportunity to honor, thank or remember people who are special to you. These bricks will be placed at the right side of the SECU Hospice House, along the path of the Memorial Garden and the Veterans Memorial. Please help us reach our goal to sell 1,000 bricks within 2017-2018. All proceeds will benefit our Hospice Capital Improvement Fund. You may order online at www.bricksrus.com/order/jhf or by completing a form on the Johnston Health Foundation website, WAYS TO GIVE. Brick size options are: 4” x 8” bricks - $300 each, and 8” x 8” bricks - $600 each.
When the hospital’s longest-serving physician retired in February, his peers later honored him in a meaningful way. Dr. Woodrow Batten, 95, was a member of the original medical staff when the hospital opened in 1951. He served for many years as a member of the Johnston Health Foundation. So it was fitting when a group of physicians made donations to the Johnston Health Foundation’s Patient Assistance Fund.

At a retirement party in April, Dr. Peter Charvat, chief medical officer at Johnston Health, announced the philanthropic initiative and presented Dr. Batten with a plaque highlighting the honor.

Funds raised will go toward patient support programs, the foundation’s endowment, or to capital campaigns for equipment, advanced technology or building expansions.

To date we have 14 Circle members:
- Dr. John Adams
- Dr. Mateen Akhtar
- Dr. Richard Alioto
- Dr. Russell Anderson
- Dr. Benjamin Atkeson
- Dr. Cary Bizzell
- Dr. Peter Charvat
- Dr. Eric Janis
- Dr. Dennis Koffer
- Dr. Robert Lippitt
- Dr. Tony Liverman
- Dr. Cyrus Manavi
- Dr. Regina Ryan
- Dr. Sanjay Singareddy
